

GROUT SYSTEM

FEATURES - ADVANTAGES - BENEFITS

GROUT AVENGER Cleans, Whitens, Maintains 299RR

Features

- Inorganic mineral acid formula
- Wild Berry Fragrance
- Colorless solution
- Concentrated 1:4 – 1:32 dilution
- Malodor counteractant package

Advantages

- Acid breaks down water scale, soap scum, soils and body fluids while “lifting” it out of grout
- Safe for use on all grouted tile floors
- Contains no dye
- Can be used for periodic heavy cleaning or more frequent maintenance

Benefits

- Effectively cleans and deodorizes all non-sealed grouted floors
- Eliminates the dangers of using other harsh products
- Will not stain grout or carpet if it comes in contact with it
- Versatile product- Can be used to deep clean or maintain grouted tile floors
- Leaves behind a pleasant fragrance for hours and eliminates odors at their source
- No special equipment needed

GPS Grout Penetrating Sealer 288RR

Features

- Waterborne acrylic polymer sealer
- Unique dual self-cross-linking formula
- 30% volatile solids
- <91 gm/l VOC's
- Exceeds ADA slip standard

Advantages

- Penetrates deep into grout
- Superior adhesion qualities
- Resistant to acids, bases and stains
- Excellent black mark resistance
- Effectively protects against soil penetration
- High solids formula fills pores in grouted surfaces
- Meets or exceeds all state VOC regulations
- Improves traction on floors

Benefits

- Protects grout throughout, not just on the surface
- Sealer will stick to almost anything
- Tough coating will not be damaged by harsh substances
- Will keep your floors clean longer while making them easier to maintain
- Blocks soil and germs from embedding in grout which improves cleanliness and prevents odors
- Achieves compliance with EPA VOC regulations
- Decreases slip and falls
